

Our next meeting is:

**February 1st — Tuesday**  
*First Christian Church*

6:30 PM — Socializing, news and announcements  
7:00 PM — Presentations begin

This month's topic:

the  
**MAC APP STORE**

A leap into the brave new world of easy, instant access to Mac software  
to be presented by **Tom Davis**

Living as we are in this futuristic, technological metropolis, how vexing to continue to have no flying cars, no holographic television, no food synthesizers and no way to beam yourself and your loved ones to Hawaii for an evening. And with the intergalactic boutiques still yet to open on Saturn and Tehralus 9, Earth-bound shopping can be tiresome. But if you use a Macintosh, the Mac App Store makes other modes of shopping for software seem retro. Browse over a thousand software titles, purchase instantly, and watch them appear automatically in the Dock on your Mac. As simple as the App Store for the iPhone, it is the most streamlined way that has ever existed to find and install new software. On Tuesday, Tom will take us on a journey through the Mac App Store. No reservations required; space helmets are optional.

Also,

**BACK TO MAC BASICS**

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

**SMART FOLDERS**  
to be presented by **Rob Ellis**

One of the simple yet ingenious ways to organize files on a Mac is Smart Folders, yet many Mac users are unfamiliar with them. On Tuesday, Rob will show how to use Smart Folders to sort out and group files on your Mac.

Tragically, even if you owned a jet pack, it would probably not transport you so well in snow storms. And a raygun, though useful against pesky aliens on a mission to destroy the world, would not blast through red tape. But the brand new Mac App Store is the new dawn of software shopping, and it works. Please join us on Tuesday and have a look at how rosy your future can be if you use a Mac. And please feel free to bring a friend. See you there!
