

Our next meeting is:

June 7th — Tuesday
First Christian Church

6:30 PM — Socializing, news and announcements
7:00 PM — Presentations begin

NOTE: Due to other events at the church, the June meeting will be held in our **ORIGINAL MEETING ROOM** down the hall. Please see directions to the room, below.

This month's topic:

THE NEW iPAD 2

An up close, personal look at the amazing new iPad
to be presented by **Roger Owens**

The brand-new iPad 2 is remarkable technology: lighter, faster, sleeker, more powerful, and two-thirds the thickness of the already-thin original iPad, with two built-in cameras and over 65,000 apps waiting in the wings. We could go on and on, but better still, come join us on Tuesday, when Roger will demonstrate his beloved wife's beloved iPad 2, from its touch-screen interface to its guts and glory. Even if your job requires wearing bulky space gloves, you may decide that you have got to have one. (Original image credit: NASA. Please note that Apollo 11 astronaut Buzz Aldrin did not actually utilize an iPad 2 on the moon in 1969, though he may have spent much of the mission cursing his luck that it had not yet been invented. Timing is everything.)

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

MAC ACTING A LITTLE QUIRKY? TRY THIS!
to be presented by **Tom Davis**

Various strange behaviors can often be remedied in OS X using a simple, albeit geeky trick: repairing "permissions". On Tuesday, Tom will show how to use Disk Utility to repair permissions, and to verify the health of disks.

Our meeting location:

*First Christian Church
6900 Market Avenue North
Canton, OH 44721
(330) 456-2600*

DIRECTIONS TO THE ROOM

After you enter the front door, go to the left past the small, open café area; the meeting room is on the left, room number 1011.

For a map of the area, along with options to get directions from anywhere, [please click here](#)

Ask not what you can do for your iPad, ask what your iPad can do for you. And because the iPad 2 is an Apple iPad, as opposed to a (fill in the brand) copycat, there are currently over 65,000 apps available, which means it can do plenty. Please join us on Tuesday to learn some of the many uses and features of this compact wonder. And please feel free to bring a friend. See you there!
