This month's topic:

MAKE YOUR WEB BROWSER SOAR

How to use add-ons and plug-ins to turbocharge your browser into doing things you never dreamed it could be presented by **Kelli Swan**, **Tom Davis**, and **Rob Ellis**

Modern web browsers are powerful, but add-ons expand their capabilities in ways far beyond the predictable, adding functions and features you might not have imagined possible. On Tuesday, we will look at add-ons and plug-ins for Safari, Firefox, and the new Google Chrome, and show you where to find more. Web browsers are free, and so are virtually all add-ons, so it costs you nothing to build the best browser that money can't buy. We have ignition...

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

SPOTLIGHT ON SPOTLIGHT
to be presented by **Tom Davis**

If you could find your keys as easily as you can find stuff on your Mac, wouldn't that be grand? Tom will show how to use OS X's powerful search function, Spotlight.

Also,

FREE RAFFLE!

We will be raffling off two items, generously donated by Mr. Michael Vahila:

- Like new Epson C88 printer with 2 new cartridges, cables and documentation. It may need an additional cartridge or two in order to run
- Ergonomic USB keyboard with mouse and extra USB cable, in great condition. The color of both is green/teal

Please note that this raffle is **FREE**, but available only to MAC² members. If you are not yet a member, are thinking of joining, and you want to participate in the raffle, you are welcome to purchase a membership before the raffle.

Your web browser need not be grounded, with only its built-in abilities. From amazing functions to tools to toys, you can build a browser that flies. Metaphorically speaking, that is. Please join us on Tuesday to find out how, and please feel free to bring a friend. See you there!
