This month's topic:

HOW TO MANAGE YOUR MONEY ON A MAC

Personal and business finances made easy, courtesy of Quicken, Mint.com, QuickBooks Pro, and a Macintosh to be presented by **Kelli Swan** and **Tom Davis**

Sure, money may be the root of all evil, but whether your current mailing address is Main Street, Easy Street or Fort Knox, you need to manage that money. A Mac can help you speed and ease the process, with far less risk of dying of boredom. On Tuesday, Kelli and Tom will show how to use both software and web-based resources to streamline budgets and record-keeping, pay bills, keep a checkbook, and get your finances beautifully organized, all on your Macintosh. (And in case you found their faces strangely familiar, yes, the photo above presents our very own Kelli and Tom, gleefully brandishing their earnings.)

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

MORE SNOW LEOPARD TIPS
to be presented by **Kelli Swan**

If you are not already running Snow Leopard on your Mac, chances are you may want to after hearing Kelli's useful, clever tips, all exclusive to Snow Leopard.

Also,

Money can't buy love, but love for your Mac may lead to money, and ingenious ways to keep it and manage it. Please join us on Tuesday, when Kelli and Tom will put money where their mouths are. And please feel free to bring a friend. See you there!
