

Our next meeting is:

**September 7th — Tuesday**  
*First Christian Church*

6:30 PM — Socializing, news and announcements  
7:00 PM — Presentations begin

This month's topic:

***SWEET TALK***  
**SKYPE: TELEPHONY FOR THE 21st CENTURY**

How to cut your phone bills by using Skype on your Mac to make real phone calls, internet voice chats and video chats, free or dirt cheap  
to be presented by Kelli Swan and Tom Davis

There is a way to tell long distance providers who profit from your phone calls, "Don't call us, we'll call you," and its name is Skype. With Skype installed on your Mac, you can utilize the internet for communications, whether you're the caller or, yes, the callee. Skype can do text chats, video conferences, phone calls to landline and mobile phones, and file transfers. Skype can also be run on an iPhone or even an iPod Touch or iPad, effectively turning the iPod or iPad into a workable phone. On Tuesday, you can see Skype in action as Kelli and Tom show off its impressive capabilities, and demonstrate step-by-step how you can call the shots.

Also,

**BACK TO MAC BASICS**

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

**OF MICE AND MEN AND WOMEN AND MACS**  
to be presented by Rob Ellis

What is the ideal mouse for your Macintosh? No need to build a better mouse; they already exist. Rob will show the essential features to look for, and how they relate to your Mac.

It's the talk of the town, and we're not talking small talk. You can talk all you like, and still pay nothing, or very little, using Skype. Please join us on Tuesday and we'll talk about it. And by all means talk a friend into coming too. See you there!
